UNDERSTAND

To travel is to LEARN about other ways of living, of being and existing in the world. It's UNDERSTANDING that our planet is as finite as it is vast, that the human being is so identical and so different. It is to RESPECT that difference and to live it, make it ours, and PRESERVE its existence as it is. It's about SHARING it with those who are with us, with those who will soon leave, and with whom we get to know during our journey. Because traveling is just that: LIVING.

4.  
I undertake to adopt all precautionary measures in order to protect local communities along the Route of the National Road 2

5.  
While traveling on the National Road 2, I am an agent of local development, for this reason, I commit to consuming local products and services.

6.  
I want to learn more about the community welcoming me, I want to share experiences and respect their values and traditions

7.  
I will consume responsibly and participate in the sustainable management of natural, heritage and energy resources

8.  
I commit to respecting diversity and not to promote discriminatory activities.

9.
